

# Upstate Upgrade:

Building a smarter, stronger energy future

## South Oswego-Tar Hill

Maiden Lane Substation

Construction Commencement Notice | February 2026

We're building a smarter, stronger energy grid to deliver a more resilient energy network for our customers.

Our work, taking place across Upstate New York, is called the **Upstate Upgrade**. It involves more than 70 projects through 2030 that will transform the transmission grid to meet growing demand for electricity while generating thousands of new jobs and more than \$1 billion in economic growth across the region.

In Oswego County, this work includes rebuilding transmission lines totaling approximately 29 miles and the construction of two substations.

We are writing you to inform you of the commencement of construction activities in your area for the Maiden Lane Substation as part of the South Oswego-Tar Hill Project.

### Schedule

Construction of the Maiden Lane substation is anticipated to begin March 2, 2026 and is scheduled to be completed by Spring 2027. Given the scope of this project, work will be completed in phases and there may be periods of inactivity throughout the project. If you have questions, please contact our team at **844-473-6864**.

### Please keep safety a priority

Our staff and contractors are required to carry photo IDs. For your safety and the safety of our workers, please stay clear of vehicles and any active field work.

The project is under the jurisdiction of the New York Public Service Commission, which is responsible for enforcing compliance with environmental and construction conditions. The Public Service Commission may be contacted at:

New York State Department of Public Service  
Environmental Compliance Section  
Empire State Plaza Agency Building 3  
Albany, NY 12223-1350  
Telephone: 518-474-8702

### Contact Us

Please direct any inquiries or comments during the construction of the project to:

**Sam Hotz**
